Mr. Geoffrey Greenall
181 Church Street
Thamesford, Ontario
NOM 2MO

Dear Geoffrey:

Thank you for your recent letter reporting reception of CFOS 560. I am pleased to confirm the accuracy of your identification.

As you can see from our letterhead our AM operation utilitzes two frequencies. CFPS is a full-time repeater on 1490 located in Port Elgin on the Lake Huron shoreline about 25 miles southwest of Owen Sound. It has an omnidirectional signal with 1000 watts power day and night.

We are just in the process of implementing a power increase to 7500 watts daytime on 560. We have a new solid state transmitter and these two developments will make it easier for you to receive us than it would have been in past.

I am glad to hear that you like our music. Although our target audience is over 35 years of age, many people your age enjoy hearing the original hits of the 50s and 60s. You may be interested to know we have a sports open line which originates in our studios or various remote locations weeknights at 6:30 and we are the voice of the Owen Sound Major Jr. A Platers. This year we are carrying all 162 games in the Blue Jays schedule!

Thanks again for your letter; good listening.

Yours sincerely,

RADIO STATION CFOS-CFPS
